

THE STUDENT AND FAMILY AFFORDABILITY FUND

The Board of Education and Child Care recently provided funding to all school districts – The Student and Family Affordability Fund – to offset the costs to parents/guardians – of sending students to school. This funding is provided for only one year. Parent advisories at both R.L. Angus School and G.W. Carlson School arranged to purchase school supplies in bulk to reduce the cost to parents. Those advisories have been reimbursed for their cost so there is no cost to parents at both of these schools for school supplies this year.

Toad River, J.S. Clark, and Fort Nelson Secondary School parents/guardians will be reimbursed for the cost of school supplies for their students, based on the PAC costs at the schools mentioned above. Letters have been sent out from the schools to gather the information we will need to make the reimbursements.

Please complete the information on the form and submit to your student's school secretary.

If you require any further information please contact Margaret-Anne Hall, Secretary-Treasurer at 250-774-2591.
