January 17, 2021

Dear Parents/Caregivers,

We have been made aware from a member of our school community at G.W. Carlson Elementary School, who has been self-isolating for a week, that their test has come back as positive for COVID-19.

We understand that families may be naturally concerned by this situation. We are working with Northern Health Authority to understand if there is any risk to other members of the school community or if any additional steps are required. It is under the Northern Health Authority to determine any next steps regarding class or school closures. We will follow the health authority's guidance carefully so that children can continue to attend school as safely as possible.

It is important that we are all following public health advice and orders by closely self-monitoring for symptoms, doing the daily health check before going to school or work, and seeking testing if symptoms develop. If you have symptoms, please stay home, and follow the guidance from your physician and our local health authority. If you are contacted by our local health authority, please follow their advice carefully.

We ask for your patience, and we will communicate out additional information as it becomes available.

Yours truly,

A handwritten signature in cursive script, appearing to read "Diana Samchuck".
